## Objective

---

- A highly motivated and quick-learning nascent Software Developer, eager to contribute to impactful web development projects. Possessing a strong aptitude for adapting to modern frameworks, I am driven to build robust and scalable applications while applying analytical and technical skills to solve complex challenges and contribute to innovative product development.

## Education

---

### JB Institute of Engineering and Technology

2020 – 2024

*Bachelor of Technology in Computers and Electronics*

*Hyderabad, Telangana*

## Internship

---

### Great-Coder Trainings

June 2024 – Jan 2025

*Java Full Stack Trainee*

*Madhapur, Hyderabad*

- Designed and implemented full-stack web applications leveraging Java Servlets and Oracle database, encompassing complete CRUD functionality and integrated e-commerce capabilities.
- Gained experience designing, developing, and delivering high-quality Java applications using J2EE (including Servlets and JDBC) and Spring Boot frameworks (Hibernate, Spring), in addition to creating dynamic user interfaces with React and JavaScript. Collaborated with cross-functional teams, implemented best practices, performed code reviews, and resolved technical issues.

## Projects

---

### Ecommerce Web Application | *Java, Spring Boot, React js, MySql*

- \* Built a full-stack e-commerce web application using Java, Spring Boot, React.js, and RESTful APIs, with MySQL for robust data management. Key features include product browsing, a shopping cart, and an admin dashboard equipped with CRUD operations for products, orders, and users.
- \* GitHub link : <https://github.com/Chaitan-ya/EcommerceWebApplicationJava.git>

### Search Engine by Using Java | *Java, JSP , MySql*

- \* Developed a search engine prototype employing DFS for web crawling and indexing, Jsoup for content extraction, and MySQL for data storage. Implemented dynamic JSP-based user interfaces to handle queries and present retrieved search results from the MySQL database in a user-friendly manner.
- \* GitHub link : <https://github.com/Chaitan-ya/SearchEngine.git>

### Movie Review Application | *Java, Spring Boot, React js, Mongo DB*

- \* A full-stack movie review application empowering users to submit and view reviews seamlessly. The backend features a Spring Boot RESTful API managing movie data and reviews in MongoDB.

## Portfolio

- \* Visit my Portfolio site Link : <https://chaitan-ya.github.io/Portfolio/>

## Technical Skills

---

**Languages:** Java , C , HTML, CSS, JavaScript

**Frameworks/Libraries :** React js, Spring Boot, Hibernate

**J2EE Technologies :** Servlets, JSP, JDBC

**Data Base :** MySQL, Mongo DB, PostgreSQL

**Tools:** Git/GitHub, Maven
